## A warm welcome to the London School of Astrology!

Our school was founded in 2000 and, now approaching our 18th academic year, we are delighted to say that the LSA continues to be the most popular place to study astrology in London.

The LSA offers weekly classes and seminars designed to enable you to use the powerful tool of astrology for your own personal development and in a professional capacity, too. Our approach shows that astrology can be practical and relevant to all aspects of everyday life, and our aim at the LSA is to provide the highest standard of tuition in a fun and supportive environment. Our tutors are experienced, practising astrologers – teachers and consultants who have the breadth of knowledge that is only acquired after many years of working on a day-to-day basis with astrology.

This year, other than our weeknight classes, we are offering a Saturday study option for beginners, which comprises four seminars a term at our regular Euston venue – see inside for details.

### *Open Evening: Thursday 5 October*

Our free, no-obligation Open Evening takes place on Thursday 5 October from 7pm to 8.30pm – three weeks before our weeknight classes begin. There will be a short talk on astrology and a chance to meet tutors, see the venue and ask questions. There's no need to book – it is open to all and (along with our other classes and seminars) held at Friends House, 173 Euston Road, London NW1 2BJ (directly opp. Euston Station and the bus terminal).

### *Year 1 – Our Foundation Course*

(Three 8-week terms plus 1 Saturday seminar per term or a Fast Track option of 4 Saturday seminars per term)

Learn the essential tools and 'language' of astrology: the zodiac signs, planets, aspects and houses; work on your own charts and the horoscopes of people in the news, and start to spot and synthesize major chart themes. You'll also learn astrology in 'real time' by watching charts animated dynamically using the latest software.

Suitable for newcomers or those wishing to refresh their knowledge or fill in the gaps, this course provides a firm foundation in astrological principles. Optional assignments completed during the year comprise Paper 1 of the LSA's Certificate. (Fast Track dates overleaf.)

#### **Term 1: Thursdays, 26/10–14/12 + 16/12**

Topics: the glyphs and structure of the chart, elements and modes, the Sun–Moon cycle, the zodiac signs, the planets, mixing/matching planets in signs and in combination, working with the Sun, Moon and Ascendant.

#### **Term 2: Thursdays, 15/02–05/04 + 24/03**

Topics: planetary combinations, aspects, chart shapings, the angles and houses, systems of house division, the Void Moon, retrogradation, Chiron, nodes, and how to read the ephemeris.

#### **Term 3: Thursdays, 10/05–28/06 + 30/06**

Topics: interpretation and synthesis, planetary strength, physical aspects of the signs and planets, a live 'mystery client', a forecasting introduction.

## *Year 2 – Our Intermediate Course*

(Three 8-week terms plus 1 Saturday seminar per term)

During this exciting year of study, you'll develop your skills in interpretation and forecasting with class examples and live client work. You'll be introduced to forecasting methods: transits and planetary cycles, Solar Arc directions, secondary progressions and solar returns. You'll also learn essential tools for today's working astrologer, including locational (astro-maps) and mundane astrology, synastry (relationship compatibility) and rectification. This is the ideal course to join if you already know the basics but want to learn techniques and develop fluency and confidence in interpretation and forecasting. An optional Paper 2 exam (taken at home during the year) completes the LSA Certificate in Astrology.

### **Term 1: Tuesdays, 24/10–12/12 + 25/11**

Topics: interpretation, synthesis, planetary configurations, psychology of forecasting, major life cycles, Solar Arc directions, transit diaries, timelines.

### **Term 2: Tuesdays, 13/02–03/04 + 24/02**

### **Term 3: Tuesdays, 08/05–26/06 + 07/07**

Topics: synastry, locational astrology, parental signifiers, solar returns, more interpretation and Chiron.

## *Year 3 – Our Advanced Course*

(Three 8-week terms plus 1 Saturday seminar per term)

This self-contained Professional Training Apprenticeship Programme is for those of you planning to take your astrology further. The programme is designed to help you broaden your skills and scope as an apprentice astrologer, and prepare

you step-by-step for reading charts and engaging in professional, paid client work. In addition, students will be encouraged to work on case studies and will be mentored if they wish to write for various magazines or speak at astrology groups/conferences.

We've built a course that will take your astrology to a new level. The Apprenticeship Programme is ideal for those of you wishing to:

- Raise your astrology to a professional standard and prepare for client work
- Return to study, revise and develop your knowledge of astrological concepts and techniques
- Receive on-going support while completing your LSA Diploma

Using many new natal and forecasting case studies, you'll learn how to:

- Synthesize and prioritize chart themes and articulate placements
- Explore symbols; engage in creative and spontaneous interpretations
- Use biography to follow trails and hear people 'speak their charts'
- Participate in live client sessions and student-tutor dialogues
- Apply counselling skills and explore the astrologer-client relationship
- Use vocational, electional and horary tools for yourself and your clients
- Build your practice and profile; write blogs, columns and articles

The Programme is open to all. Some knowledge of synastry, mundane and locational astrology is helpful but is not a prerequisite. If you're unsure of your current level, please feel welcome to contact the office to discuss it further.

## *Online Courses and Summer School*

In late 2017, we will be launching an online course for those unable to come to London to study, and there will be a student textbook – a major new publication – to accompany this exciting venture. And later, in 2018, we'll be holding our first Summer School in London.

To be the first to know more, subscribe to our **mailing list** and we'll keep you updated with the latest developments. Feel welcome to follow us on **Facebook** and **Twitter**, too.
